JAMES S. SHERMAN, OF NEW YORK

Reno Should Be Reformed

Reno's divorce colony continues to wax large, fat and saucy. It is being recruited rapidly from the society circles of the large cities and no sooner a decree is granted until others step up clamoring for the same relief. The situation presents a study, both in economics and domestic infidelity. Practically none of the members of this notorious divorce colony know what exertion of either mind or body means. They are folks upon whom the duty of spending their incomes falls as a hard task. Their substance goes for folly and aping of aristocracy. And after all the demands of vanity have been met these unhappy people still have a surplus left and they can find no way to spend it except in sin.

It is too bad that Renolites have fallen for the divorce colony idea. It is too bad for the effect it reflects upon the entire state. Things have come to such a pass in Reno that it is at once the rendezvous of the complaining married folks of the country who really have no legal complaint and those of the state's sybarites who desire a devil of a time and when we use the latter term it is to express a meaning literally. Let the next state legislature take hold of the situation firmly and intelligently, and disregarding the importuning of the bunch of sharking lawyers and the Reno business men who are alike waxing fat over ill gotten bounty, pass a law that will make Nevada as odious to them as holy water is to the devil. — Churchill County Standard.

Lest We Forget

Roosevelt should be satisfied now. He was informed by the members of the republican party that he was not the choice for president, so he has organized a little party all his own and after a months hard work has secured the long sought nomination. The manner in which the ex-president can explain old assertions to his own satisfaction, is such that he is entitled, not only to the nomination, but a life membership in the Antanas club he instituted several years ago.

The assertion of Marc Anthony at Caesars bier, that the evil that men do live after them, has not proved true in the case of Roosevelt. Five years ago this country was struck with a panic. In Tonopah two banks failed and a half dozen institutions were closed in the southern part of the state from the same cause. Now the blame is not attached to Roosevelt but to the moneyed interests. At the time of the panic Roosevelt was freely blamed for the occurrence. However, time appears to have wiped this important fact from the minds of the American public, but it will remain for the heat of the coming political campaign to resurrect this item that can be charged directly to the former president.

Extra! Extra! The stork is hovering about the Astor home. The same bird is also hovering over a thousand others and the papers are not saying a word about it. A little wealth makes a lot of difference to the eastern newspaper correspondents and also to the reading public.

California has again showed its appreciation of the efforts of President Taft in securing the Panama Pacific exposition for the Pacific coast, by presenting Governor Hiram Johnson as the running mate of Roosevelt on the progressives ticket. Such is gratitude.

MANHATTAN MUSTANG IS PROVEN IN MINERAL ZONE WHEN ORE IS FOUND

Special to the Bonanza.

MANHATTAN, Aug. 9.—As forecasted several times and particularly a week ago in this correspondence, a sensational strike has at last been made in the Mustang mining property. Not that all of the shoot is high grade, but there is phenomenal ore in it with a width of three feet that will mill better than \$20 'a ton.

Gold sticks out all over the rock that has been opened in the high grade streak. There is plenty of it and even such matter-of-fact men as Scott Jameson, who is supposed to never get excited over the sight of gold, admits with ill-concealed enthusiasm that as far as the high grade extends it certainly is fabulous.

This strike was made in the lease operated by Jameson, D. R. Finlayson and O. B. Steen. Its inception was with the discovery on the surface last spring during a period when the War Eagle mill was closed down and Finlayson and Jameson had a little time to spare, of a fine bunch of high grade float on the slope of the hill a short distance north of the mill. They located a stringer there and securing a lease sunk upon it for fifty feet. In their

shaft was considerable high grade and a specimen ore in a narrow streak, but no regularity of pay. Subsequently they started a new shaft but a few feet further north and up Mustang hill, sinking again to the fifty-foot level. This time the specimen stringer was present and a ledge running from four to six feet wide which they sampled and pronounced capable of paying the expenses of mining and milling.

A few days since their shaft, which is on the ledge but practically vertical, passed out of the ore and they began drifting north. A very few shots brought them into the real stuff. It is a fine showing but its present values are probably but a hint to those to be revealed by diligent pursuit of the specimen stringer that so persistently penetrated this portion of the Mustang ground.

Specimens from the strike were viewed by hundreds of persons this week and have been the source of much excitement. In the past year or so some of the "wise ones" have given out the word that the Mustang was outside of the mineral zone of Manhattan and not on the hills to make a mine. Today they are not saying a word.

WHITE PINE IS AFTER SLICE OF NYE COUNTY

DUCKWATER AND CURRENT CREEK SECTION WOULD LEAVE OLD HOMESTEAD

On the first page of this issue of the Record will be found an interesting article from the typewriter of Judge Allan C. Bragg, a pioneer of Nevada, who returned last week from an overland trip to Pioche, says the Ely Record.

The suggestion is made by the Judge that the Duckwater and Current Creek sections of eastern Nye county be added to White Pine county at the next session of the legislature.

This suggestion will meet with the hearty approval of all residents of that section, who are naturally tributary to Ely, and transact all their business here. They are more than as far again from Tonopah, the county seat of Nye county, as they are from Ely, and it would be merely a matter of justice to them to be annexed to White Pine.

If the lines of Nye county are to be straightened out, however, it might be well to continue the line from the southwestern portion of White Pine county to a connection with the northwestern corner of Lincoln county, giving to Lincoln county all that territory in Nye county south of the southern line of White Pine county. This would square up the eastern line of Nye county and would add materially to the territory of White Pine and Lincoln counties, but would effect only a very few families who now reside in that section.

The Record feels sure that all the residents of that section would welcome the proposed change. As the lines are now drawn the people of that section of Nye county seldom, if ever, visit their county seat at Tonopah. Nye county is as large as any one of the New England states, and can well afford to give up some of her territory in the interest of the residents effected thereby.

KANSAS WOMEN BUILT 800 FEET ROADWAY

LEANNA, Kan., Aug. 9.—Women wielded sledge hammers to break rock for the building of 800 feet of roadway here yesterday.

Undaunted by the refusal of the men of the town to take up the work of building the thoroughfare, the women enlisted the aid of small boys and unemployed men of neighboring towns, paying the visitors for their work out of their "allowances". A number of the women also put on "jumpers" and helped unload wagons containing the road material obtained in the vicinity.

IS RECOVERING FROM APPENDICITIS ATTACK

Mrs. J. A. Pearson, 406 Florence avenue, who has been ill for the last week with appendicitis, was reported yesterday by Dr. Masterman as on the road to recovery. An operation was averted and the patient will soon have completely regained her former health, according to the report of the physician.

TEMPERATURE REPORT

Highest temperature yesterday 89; a year ago, 87; lowest last night, 65; a year ago, 61.
